Insight 4: Fund Category Performance

Equity-oriented categories attracted consistently higher net inflows compared to debt and hybrid categories, indicating stronger investor preference for long-term wealth creation.

Chart Reference: Figure 4 – Category-wise Net Inflow Heatmap

Insight 5: Investor Demographics

The majority of SIP investors belong to the young and middle-aged population. These age groups also contributed the largest investment amounts.

Chart Reference: Figure 5 – Age Distribution and SIP Amount Analysis

Insight 6: Geographic Distribution

Metropolitan states contributed the highest SIP investment amounts. T30 cities accounted for a larger share of investments compared to B30 cities.
